GRN: Investor, Supporter to Business & Market Development Risk Taker

For too many talented Namibian entrepreneurs, especially those from underserved communities, the path to success has been blocked by a lack of funding. They have the ideas, the skills, the drive, but not the resources to turn their dreams into reality. The NEW WAY changes everything! With a N\$12 billion investment fund, through Enterprise Namibia, the government becomes a true risk-taker, a partner to Namibian local businesses, who believes in Namibian ingenuity. Enterprise Namibia under the Ally Angula led Government will allow us to Imagine for the 1st time, a future where brilliant ideas, no matter who they come from, can get the financial boost they need to create jobs, solve problems, and build a stronger Namibia.

Enterprise Namibia: Why this Program Matters?

The "NEW WAY" isn't just an economic plan, it's a chance to ignite the Namibian dream! For too long, we've felt stuck. But imagine a Namibia where every Namibian can soar. The NEW WAY is about government believing in us, investing in our ideas, and becoming our partner in success. It's about creating jobs, building a brighter future for our children, and leaving behind a Namibia powered by our own potential. Every dollar we invest stays here, strengthening our communities and fueling a future where Namibia thrives, not just survives. Let's stop relying on others and start building a Namibia we can all be proud of – a Namibia built on Namibian dreams, Namibian sweat, and limitless Namibian spirit.

Empowering Namibia's future through enterprise and farming

With the ambitious goal of creating 500,000 jobs within the next 3 years and ensuring every Namibian household, whether in town or village, has opportunities for monthly cash income, we can only achieve this by implementing targeted interventions. The NEW WAY interventions focus on fostering a culture of self-reliance and innovation (making us a country of MAKERS) while urgently addressing skill gaps to increase Namibian companies productivity. We can only achieve self-reliance this by giving our DOERs - our entrepreneurs and our small holder farmers the financial means to do so.

For too long, we've relied on others for basic necessities. The NEW WAY takes a bold step towards self-reliance by investing in our own. We will empower local businesses to produce for economic growth and development

We will become a nation of MAKERS!

Unleashing the Entrepreneurial spirit of Namibia's youth: The N\$2 billion Spark

Putting Namibians 1st

Namibia's N\$2 billion Spark isn't just a number - it's a life-changing opportunity for aspiring young entrepreneurs. Take Maria, a passionate young woman from a rural community, who dreams of opening an eco-lodge showcasing Namibia's natural beauty. Or David, a tech whiz with a revolutionary app idea to connect local artisans with global markets.

The N\$2 billion Spark empowers these dreams. It will provide the resources, mentorship, and training to turn ideas into thriving businesses. By investing in our youth, we invest in a stronger, more innovative Namibia.

Rural Development Youth Enterprise Fund (RDYEF):

This is targeted for rural youth with a brilliant business idea. This program equips them to turn their vision into reality, fostering economic growth in our local communities.

Youth in Agribusiness: For those that see Namibia as an agricultural powerhouse, this program empowers them to become a leader in the field, ensuring food security and a thriving agricultural sector.

#TheNEWWAY

Unleashing the Entrepreneurial spirit of Namibia's youth: The N\$2 billion Spark

Youth in Trade and Vocation: Many of our Youth have graduated from NIMT & VTCs so they have the skills and the passion for a specific trade. This program provides the financial resources so that they can earn from their training. The program will also see the construction of permanent Trade Centers in all regions so that we can buy the products coming from the VTC all year round & they can earn an income from their skills.

Youth in ICT: The world is changing fast and our tech whizzes need the financial muscle to innovative and get their ideas to the market. This program fuels this talent, transforming many tech whizzes into tech leader who will shape Namibia's digital future.

More than half of the Namibian people live in our villages, where farming is the main source of food and limited incomes. Many more Namibians are hungry and those that have some money are spending way too much money on food that we import. Many in our villages lack water, agricultural inputs, training and financing to move from subsistence farming to farming for an income. Empowering Our Green Hands: Owning Their Land, Owning Their Future

Our Green Hands, our real economic heroes are in the rural parts of Namibia, We must empower our Green Hands, to be no longer limited by rain and lack of knowhow, by equipping them with training and reliable water, so that they flourish as they help us to restore the Namibian economy and food security.

Namibia's resettled families and Green schemes Small Scale Farmers deserve the security and dignity of land ownership. The Government of the Republic of Namibia (GRN) will be making it a reality by granting full title to resettlement farms and Green Schemes. But land is just the seed. We will provide a comprehensive support package, from financing tailored to individual needs to larger farming units, to ensure our Green Hands can flourish. This isn't just about farms, it's about food security, increased productivity, and creating real wealth Namibia.

The NEW WAY for Green Hands Economic Heroes

Water Security: Reliable water access, independent of rainfall, will ensure consistent harvests and increased productivity. Irrigation at rural household level

Full Land Ownership: Resettlement farms will be transferred to full ownership, empowering families and fostering a sense of belonging.

Needs-Based Financing: Green-scheme farmers will receive financial resources tailored to their specific needs and goals.

Financing for our Small-Scale Farmers: Financing will release under-utilised fields so that inputs can be sourced to grow the food that we need to grow.

Expanded Farming Units: Larger farming units will be allocated, allowing Green Hands to transition from small-scale to emerging commercial agriculture.

Technical Training and know-how: Comprehensive training programs will equip farmers with the knowledge and skills to succeed.

Together, We can cultivate a more prosperous Namibia.

Empowering the Hands that Build Our Nation

Namibia's strength has always been its people. For too long, the sweat and spirit of our citizens haven't been fully rewarded. We've seen big companies take centre stage, leaving the little guy on the sidelines. But that changes with the NEW WAY!

This campaign is a true call to action for the many hands that have built this nation – the miner, the fisherman, the local vendor. You are the backbone of our economy, and it's time you have the chance to own a piece of the Namibian dream.

Here's how we're levelling the playing field:

Deregulating the Fishing Industry: We're cutting red tape to unleash the potential of our fisherman - we need small-scale fishermen & women. Namibia's rich waters should benefit all Namibians, not just a select few.

It means empowering Namibian Small Artisanal miners, to own their destiny. This fund is to fund our Small- scale miner to purchase mining equipment, PPE & create a market place for their mined commodities.

This isn't just about jobs, it's about reclaiming our birthright, the wealth that rightfully belongs to Namibia.

It's about building a future where every Namibian benefits from the resources of our own land. The Urgent Need to Help: Why these Programs Matter: N\$1bn "Get Back on your Feet" Fund

Empty storefronts. Closed factories. Broken dreams. Namibian businesses have been hit very hard by a bad economy since 2015, the closing down of SME Bank and the blow of COVID. Many of our **families are drowning in debt**, struggling to afford basic necessities and fearing for their children's future.

Without a lifeline, countless businesses will still close, dreams will be dashed, and families will remain burdened by debt. This is why we need the "**Get Back on Your Feet**" and "**Families National Debt Relief**" programs.

These programs are more than just financial handouts. They represent a chance to rebuild, a promise for a brighter future. By reviving our businesses, re-opening our closed factories; the backbone of our communities, we can bring back hope, jobs and opportunity. By helping families escape the cycle of debt, we can ensure the next generation has a chance to reach their full potential.

I know for too many Namibians, the dream of a prosperous future feels out of reach. The **NEW WAY** is our bold answer to years of struggle. By realigning the role of government, we can unlock a new era of economic reform, creating jobs, fostering businesses, and building a brighter future for all Namibians. In the **NEW WAY**, **GRN: Builder of the Jobs Engine for Namibia's Future.**

The quiet hum of activity, the satisfaction of a task completed, the sense of purpose that fills the day. Work, at its core, isn't just about money. It's about weaving yourself into the tapestry of society. Every day, you contribute your unique talents, a single thread that adds strength and beauty to the whole. It's about rising before dawn, the quiet pride of bringing home the everyday essentials – bread for the table, milk for the morning, and maybe even a sweet treat for the children.

It's about leaving home each day with your head held high, because you have a place to belong, something to contribute.

The NEW WAY Recognises This Importance

This is why the NEW WAY recognises the importance of work in a human being's life. We understand the inherent value of work for the well being of our families, our communities and ultimately our nation. Our rural communities are the backbone of Namibia. Yet, for too long, they've faced the challenges of drought and limited infrastructure. In the NEW WAY we're changing this with the Rural Residents Infrastructure Construction Program (RRICP).

We are doing this so that we can embark on a future where the fear of drought is a memory, not a constant worry. Picture lush green mahangu fields across the Zambezi, Oshana, Ohangwena, Oshikoto, Kavango East and West, Omusati regions; fed by reliable water flowing from new community dams. Think of the joy on a child's face as they finally have clean, running water at home and electricity to study at night. The Rural Residents Infrastructure Construction Program isn't just about jobs, it's about bringing life back to our rural communities. It's about dignity, security, and the chance for every Namibian family, no matter where they live, to thrive. This program is about building a future where the land nourishes us, not tests us. For those willing to work, this program will not create 100 000 jobs, it will ensure that 2024 is the year were we say hunger stops here and we build a legacy of self sufficiency and food security for not only today but for future generations.

Our rural communities are the backbone of Namibia. Yet, for too long, they've faced the challenges of drought and limited infrastructure. In the NEW WAY we're changing this with the Rural Residents Infrastructure Construction Program (RRICP).

What is the RRICP? The RRICP is a multi-pronged approach to:

Combat Drought: We'll construct community earth dams and water pipelines, bringing reliable water directly to all thirsty fields and ending dependence on unpredictable rains.

Create Jobs: The program will directly employ 100,000 rural residents, empowering them to build a brighter future for themselves and their communities as we build a more drought-resilient future, together.

ALLY ANGULA

FOR PRESIDENT

“Together, let's break the cycle of poverty, lack and limited opportunities! I know that for too many Namibians, the dream of a secure future feels out of reach. Hunger, lack of money, the high cost of living, and joblessness weigh heavily on our families. “

The NEW WAY offers a real solution to real problems.

ALLY ANGULA

FOR PRESIDENT

“**The NEW WAY** isn't handouts, it's about unlocking our potential, It is about giving Namibians a hand-up. It's about trusting Namibians to build a brighter future for themselves, their families, and our nation.

Together, under **the NEW WAY**, Namibia can become a model of self-sufficiency and prosperity.”

The NEW WAY is about trusting Namibians
